Q: Rails Model - method or field? I am writing a model to store dates that span multiple months and years in the model. The concept here is date ranges, so a single date may fall under multiple date ranges. I'm trying to get the entire concept down in my head. Now, let's say I have a Range model which represents a date range. So I've got attributes for start_date and end_date. I could store this in the model as start_date and end_date, or I could store the start and end month and year in the model. The second option would seem better since I won't have to do something like: my_range.start_date.month The two methods I can think of for this are, say I have a Range model. static RANGE_MULT

What's new in Astron Jump Baby:

Astron Jump Baby () is a 1997 South Korean film, written and directed by Park Chan-wook, starring Oh Ji-ho and Uhm Tae-woong. It is based on Jin Yong's history of the Joseon Dynasty tale The Turtle's Eyes, but is not an official sequel. The film title is derived from the Chinese nursery rhyme "Little Astron". It was both a critical and commercial success, receiving a number of awards, including Best Picture at the 1998 Baeksang Arts Awards. The film shows the girl Ai at the age of fourteen, when she first recognized herself that she is a gift from heaven. Ai had foretold her existence, and her life is severely complicated by this prophecy. Plot The film begins in 1370 when Empress Gi, the female emperor of the Joseon Dynasty, demands to have a hidden royal heiress named Ai (Ji Eun-soo) brought to the palace. The baby has a few references to her destiny, and appears to be born with horns. Upon birth, the baby is brought to the imperial court. In the palace household, two sons, Yi (Shin Won-ho) and Yu (Hwang Tae-kyung), are born. Later, a woman named

O (Uhm Tae-woong) marries the Yang Bin (Park Hui-bae), who has a mistress named Hoon (Kim Eun-jung). In 1375, the three boys are brought to Ai as newborns in a cloth bag. As they grow up, the three boys form an unbalanced triangle, especially Yu, who is the most beautiful of the three, and is dependent on Hoon's love. O, feeling jealousy and resentment, helps secretly to eliminate Hoon from sight. Yi, on the other hand, is arrogant and does not care about anything. Ai grows up an intelligent girl with outstanding physical features. At the age of 15, she is put on the examination seat by the examiners. Seized by fear and panic, she says that she was a cherry tree in a dream she had during her childhood, and pretended to be a babbling lunatic. Yi, understanding her true intention, realizes she is going to escape from the palace, and writes a letter to his older sister, the court lady Gi Sik-hwa (Kim Ji-hoon) who is the first guardian of Ai. He wins Ai's love by writing a love letter
