That was the best but when I play it on the PS3, I'm having a bit of trouble getting good quality video and audio. Other than that, beautiful, well done. That was the best but when I play it on the PS3, I'm having a bit of trouble getting good quality video and audio. Other than that, beautiful, well done. Nice work! I thought I had a good copy but it died after like 5 episodes of watching... It's such a shame because it was worth it. Good quality video, I'm not sure what you mean about an audio problem. I think I've had both the PS3 and PC versions. On the PS3, the audio problem is the PS3 itself. It's so jittery/static that it doesn't sound smooth and sometimes volume is maxed out so that's the reason for the audio problem. As for the video, I get about 4-5 vertical lines on the top and bottom (maybe I'm an OCD jerk or something). I never seen that before. after 10 minutes the picture comes to a standstill. Thanks for your site, by the way - I haven't been in the YouTube community in a long time and this is a great tool! After watching this show - do you think there is any chance of the TNA/MTV stuff from the Main Event the week after RAW, and other TNA shows from there, being put on here? Thanks! My! I haven't
